

# AutoCAD Advanced

## Course Description

This course introduces advanced techniques and teaches you to be more proficient in your use of AutoCAD. AutoCAD is the world's leading computer based design tool and the course provides a thorough and complete understanding of its features and functions. It enables you to recognise the best tool for the task, the best way to use that tool and how to create new tools to accomplish tasks more efficiently.

## Prerequisites

Completion of AutoCAD/AutoCAD LT Fundamentals or equivalent is highly recommended.

## Topics Include

-  Advanced Text Objects
-  Working with Tables
-  Defining dynamic blocks and attributes
-  Outputting files for review
-  Publishing files for review
-  Collaboration tools
-  Automation tools
-  Creating sheet sets
-  Managing Layers
-  CAD Management and System Setup
-  Enhancing productivity by customising the AutoCAD interface
-  Using macros
-  Using custom routines
-  Publishing sheet sets
-  Customising sheet sets

Course Duration: 3 Days
