

Autodesk Build CORE: Administrators

COURSE DESCRIPTION

This **Autodesk Build CORE: Administrators** course provides text and video-based learning content, that teaches account and project administrators, who are new to the Autodesk Construction Cloud, everything they need to know to both understand their Project Collaboration Environment, as well as how to configure its features and functions. Each learning module is followed up with knowledge checks, before an end of course challenge, to help users retain the information they've learnt.

COURSE MODULES

- Construction Management Functional Overview
- Configuring and Using Project Templates
