

Autodesk Revit: Introduction to MEP Modelling and Editing

man  machine
eLearning

COURSE DESCRIPTION

Once you have mastered the basics of the Autodesk Revit interface and have a handle on how to make edits to geometry and use the tools available to you, you will likely want to start modelling objects. This course teaches you the basics of drawing MEP elements inside of Autodesk Revit, such as ducts and pipework, from scratch. Whether you are adding new components to your model, or starting with a clean slate, this course will teach you the essentials to get you started with MEP modelling of ductwork, electrical systems and plumbing.

COURSE MODULES

- Placing Plumbing Fixtures
- Modelling Pipes
- Placing Air Terminals
- Modelling Ducts
- Placing Lighting
- Modelling Conduits
- Placing Equipment
- Working with Systems
- Placing Spaces
- Creating Zones
