

BIM Track Running Start

Man and Machine's BIM Track Running Start service mixes industry leading training content, with hands-on project consultancy. You will be taught how to use the tools in BIM Track on the cloud, and in products such as Revit and Navisworks. You will also be shown how to configure and customise BIM Track for your project to meet your requirements.

Course Modules

- *Managing your BIM Track Hub*
- *Inviting and Controlling user Access*
- *Installing Integrations*
- *Creating Projects*
- *Project Configuration and Customisation*
- *Using the Online Viewer*
- *Creating Issues*
- *Editing and Working on Issues*
- *Using the Dashboard*
- *Viewing and Reporting on Metrics*
- *Using BIM Track for Autodesk Revit*
- *Using BIM Track for Autodesk Navisworks*
- *Administrative Tasks for BIM Track Projects*
- *Creating Project Templates*
