COBie Fundamentals Certification

COURSE DESCRIPTION

This training course will provide you with a fundamental understanding of COBie, and its use in BIM project environments. The course covers the detailed schemas and structure, as well as how they can be applied to digital projects.

It also explores how COBie is used in your BIM Workflows, their role in the lifecycle of the built asset and provides a hands-on approach to how they work. If you need to specify, create, update, use or check files for clashes/correct COBie data, you will benefit from this course.

COURSE MODULES

- Principles of BIM
- Introduction to COBie
- COBie Demystified
- The COBie Format
- The COBie Deliverables
- Delivering COBie using IFC
- COBie Toolkit using Autodesk Revit
- COBie Data Checks and QC Reporting

OTHER INFORMATION

Prerequisites

Some exposure to 3D modelling tools would be advantageous.

Course Duration

1 Day
